📁 Portfolio: aniketsapra    📍 New Delhi, India

## Profile

Passionate and detail-oriented **Full-Stack Developer** with hands-on experience building dynamic web applications. Proficient in **React.js, FastAPI, Node.js, Express.js, MySQL, and MongoDB**. Skilled at crafting responsive user interfaces and developing robust REST APIs. Strong collaborator with experience working closely with teams and clients to deliver high-quality software solutions.

## Education

**Bachelor of Computer Application (BCA) - Scored 8.5 CGPA,** 2019 – 2022 | New Delhi, India  
*Jagan Institute of Management Studies (JIMS)*

## Professional Experience

**Frontend Developer (Freelance), Freelancer Upwork** 04/2024 – 11/2024 | Remote

- Delivered high-quality web development projects, enhancing client satisfaction and retention.
- Developed and maintained websites using modern technologies like Next.js, React.js, TailwindCSS, and JavaScript.
- Built and maintained reusable UI components, ensuring scalability and performance.
- Implemented dynamic React forms with custom validation logic to improve user input accuracy and UX.

**Software Developer (Associate Analyst) - SAP ABAP Backend Developer, Deloitte USI** 12/2022 – 07/2023 | Hyderabad, India

- Coordinated with functional teams to translate business requirements into technical specifications and scalable solutions.
- Worked closely with cross-functional teams, improving collaboration and streamlining the development cycle for **timely delivery (95% on-time rate)**.
- Gained experience in **debugging, optimizing, and enhancing complex systems**—skills directly applicable to modern web backend development.
- Developed and enhanced **custom ALV reports**, improving data visibility and reporting accuracy for functional teams.
- Implemented **BADI enhancements** to extend SAP standard functionality without modifying core code, ensuring system stability and maintainability.
- Created and modified **Adobe Forms** for document output (e.g., invoices, purchase orders).
- Ensured clean, maintainable code by following **SAP OO-ABAP** best practices, reducing bug rates in QA by **35%**.

## Skills

**Languages:** JavaScript, Python, HTML, CSS

**Frontend:** React.js, Next.js, TailwindCSS, Shadcn, Responsive Web Design

**Backend:** FastAPI, MySQL, Node.js, Express.js, MongoDB, REST API, JWT Authentication

**Developer Tools:** Git, Github, VS Code, Postman, Debugging

## Projects

**Pharmize - Medicine Inventory Management System** ☑

- Developed a **full-stack admin web application** to streamline **pharmacy inventory** and **sales operations**.
- Implemented modules for **customer, supplier, and medicine management** with **automated stock adjustments**.
- Built **protected routes** using **JWT-based authentication** to secure sensitive data and restrict unauthorized access.
- Created **data-driven dashboard** and **reports** for real-time inventory and sales analytics.
- Designed a **user-friendly UI** optimized for **desktop administration**.
- **Tech Stack:** FastAPI, MySQL, React.js, Tailwind CSS, REST APIs, JWT, JavaScript, Python.

**TurfSync - Turf Booking Application** ☑

- A **full-stack booking system** to manage real-time **sports turf reservations**, eliminating scheduling conflicts.
- Integrated **secure JWT-based authentication** for user access control and data protection.
- Optimized booking logic and slot validation, reducing scheduling errors by **50%**.
- Includes a **user profile section** where users can view their account details and manage their bookings, with the ability to **delete previously made reservations**.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Javascript.

**ThriftBazaar - E-commerce Website for Used Goods** ☑

- Built the **frontend interface** for an online marketplace enabling users to buy and resell used items.
- Enhanced **user experience** through **responsive design** and improved page performance by **40%**.
- **Tech Stack:** React.js, Next.js, Tailwind CSS, Javascript.
